

Horrigan Labs - Technology Available for Licensing

We are actively seeking licensees or strategic partners for the following technologies.

Industry	Technology	Features
Medicine	Topical Anti-fungal - Neomycosin™	Natural, Safe, permeates skin and nails, easy regulatory
	Cure for Dental Caries	Reboots dental biofilm, easy regulatory
	Cure for Onychomycosis (Nail Fungal Infection)	New biocides for specific classes of pathogen
	Procedure for Rebuilding Dental Enamel	Closely duplicates nature, safe, easy regulatory
	Vapor-based antiviral	Prophylactic air-borne disease barrier
Cosmetics	Predigested Keratin Solvent	Makes discolored nails attractive. Safely removes fungal deposits
	Predigested Collagen Solvent	Safely removes fungal deposits as callous from skin
	Solvent-free Nail Polish	Natural, tough, odor-free, high-build
	Dentixia™ Dental Whitening Procedure	Whitens and cleans beyond bleaching
	Topical , Natural, Antifungal kills skin discoloring fungi	Removes and repairs spots from various skin fungus
EnergySaving	BackEMF™ Battery Extension Tech	Recovers 68% of energy from battery discharging cycle
	ElectroPulse™ Hybrid Engine Technology	Creates electricity from waste energy from combustion process
Food	VapourPaper™ anti mold for produce post-harvest	No mold on fruit post harvest
	MoonRocks™ Anti-ripening Tech	Retards ripening process for fruit and other perishable produce
	Meat Tenderizing/Flavoring Technology	Improves texture, taste, tenderness, of beef, chicken, pork, etc
Oil Industry	Fracking Water Purification	Simple, Inexpensive, effective
Marine Eng	SolidWater™ propeller	Saves Fuel (a lot) Save ship cost, better control
Pumps	Assorted, Hight Volume, High Lift, Laminar	High volume vertical lift or high volume laminar discharge
